Kofax Learning Cloud Platform

The Kofax Learning Cloud provides the learner with a consolidated learning platform that provides multiple elements and benefits to the learner. Each course or learning path purchased includes the following tools and services for one full year:

- Unlimited access to any purchased Kofax training content
- Exclusive invitations to product-specific knowledge-sharing webinars delivered monthly for select Kofax products
- Full access to any updates made to your selected training course or learning path for one full year. For example, all dot-releases relevant to your course, will appear within your training materials when published and there is no limit to the number of updates you are entitled to.
- Training support which allows you to request assistance with any issues, questions, or suggestions you have while engaging with Kofax learning content.
- Digital badging that let’s you show off and validate your newfound skills.
Role-based Learning Paths

TARGETED LEARNING

Everything Needed to Become Proficient With Your Kofax Product and Your Job

Role-based training provides the learner with the resources they need to not just do their job, but to do it more efficiently and accurately. Taking a role-based approach towards learning a product, will help to optimize your skills and knowledge and set you up for long-term success with your responsibilities.

Role-based training can help to prepare you for everyday pressure, with grace and self-assurance. Not only does it teach you how to use a product, but it teaches you to do your job better while using the product, with less confusion, more confidence, and fewer mistakes or delays.
# Kofax AP Agility™

## AP Agility Installer
The focus of this course is to develop the skills necessary to install the AP Agility solution. You will also learn how to configure data imports, exports etc. with the aim to meet your Invoice Processing and Accounts Payable business requirements.

## Kofax Communications Manager™

### Communications Manager Professional Developer
Completion of this course will provide you with the skills and knowledge expected of a proficient Communications Manager Content Creator. From the fundamentals of installation, architecture and the use of authoring tools, you will progress towards the creation and editing of highly functional corporate documents.

**Available Credentials**
- KCM5.3 Explorer
- KCM 5.3 Installer
- KCM 5.3 Content Creator
- KCM 5.3 Template Developer
- (Optional) Certified KCM 5.3 Professional Developer

**Course Details**
- **KCM-TRN-PDEVV-054**: 4 Hrs 43 Min
- **Includes Updates**
- **Citizen Developer**: Self-paced
- ** Introductory**
- **VM**: $495 USD

## Kofax RPA™

### RPA Executive
Kofax RPA is a robotic process automation solution that enables the quick automation of labor-intensive, multi-step tasks across systems and data sources in a low code environment.

**Available Credentials**
- RPA 11 Explorer

**Course Details**
- **RPA-TRN-RESEXCV-000**: 3 Hours
- **Includes Updates**
- **Executive**: Self-paced
- **Intro/Intermediate**
- **Free**

### RPA Citizen Developer
The course covers all the topics necessary to gain a solid foundational knowledge of the RPA product and become proficient building robots that automate common process tasks like data extraction from websites, data entry, and working with spreadsheets.

**Course Details**
- **RPA-TRN-RCDEVV-000**: 16 Hours
- **Includes Updates**
- **Citizen Developer**: Self-paced
- **Intro/Intermediate**
- **VM**: $1,495 USD

### RPA Professional Developer
The course covers numerous topics that range from interfacing with a Document Transformation Server, interacting with Web Services, using the Robot File System, designing Kapplets and using robots to process incoming email, as well as extending RPA with custom actions and running robots from any application.

**Course Details**
- **RPA-TRN-RPDEVV-000**: 35 Hours
- **Includes Updates**
- **Professional Developer**: Self-paced
- **Intro/Inter/Adv**
- **VM**: $2,495 USD
**Role-based Learning Paths (by product)**

### Kofax SignDoc™

#### SignDoc Cloud Administrator
By competing this course, you will be able to configure, use, and administer all aspects of SignDoc Cloud. Beginning with an introduction to SignDoc you will learn how to create Signing packages and signing templates, before progressing to adding, deleting and managing SignDoc users and teams. To conclude, you will learn how to administer various system settings from the personalization of the SignDoc interface, to the management of system status and system security.

- **KSD-TRN-ESSENV-031**
- **2.5 hours**
- **Includes Updates**
- **Administrator**
- **Introductory/Intermediate**
- **Self-paced**
- **VM**
- **$495 USD**

#### SignDoc Cloud Business User
Kofax Transformation™ accelerates business processes by replacing manual document classification, separation and extraction with touchless processing, speeding you along on your digital workflow transformation journey. Whether you are a Consultant responsible for explaining the Kofax Transformation capabilities, a Developer responsible for maintaining and extending the Transformation solution organization, or an Administrator responsible for configuring and monitoring the solution, this course is for you.

- **KSD-TRN-BUSUSV-031**
- **1 Hour**
- **Includes Updates**
- **Business User/Executive**
- **Intro/Intermediate**
- **Self-paced**
- **$495 USD**

### Kofax TotalAgility™

#### TotalAgility Executive
This training will assist you evaluate and plan your next steps with the Kofax TotalAgility solution by introducing intelligent automation and a comprehensive overview of TotalAgility’s functions, components, and runtime operation.

- **KTA-TRN-REXECV-000**
- **2.25 hours**
- **Includes Updates**
- **Executive**
- **Introductory**
- **Self-paced**
- **Free**

#### TotalAgility Administrator
The focus of this course is to provide product training for Kofax TotalAgility 7 utilizing instruction and hands-on labs to develop administration and operation skills for the software. The result will provide technical skills necessary to become certified in Kofax TotalAgility 7 Administration. Attendees will be able to administer and troubleshoot Kofax TotalAgility.

- **KTA-TRN-RADMNV-077**
- **16 Hours**
- **Includes Updates**
- **Administrator**
- **Intermediate**
- **Self-paced**
- **VM**
- **$2,495 USD**

### Available Credentials

- **SignDoc Cloud 3.1 Administrator Essentials**
- **(Optional) Certified SignDoc Cloud 3.1 Administrator**

- **SignDoc Cloud 3.1 Business User**
- **(Optional) Certified TotalAgility 7.7 Administrator**

- **TotalAgility 7.8 Explorer**
- **TotalAgility 7.7 Administration**
- **TotalAgility 7.7 On-Premise Multi-Tenancy**

- **KSD** - TRN - BUSUSV - 031
- **KTA** - TRN - RADMNV - 077
- **Optional** - Certified TotalAgility 7.7 Administrator
Available Credentials

TotalAgility Citizen Developer
This training will prepare you to take advantage of the no-code capabilities of the Kofax TotalAgility Apps by implementing and experiencing the design time and runtime operation of them within TotalAgility workflows.

KTA-TRN-RCDEVV-000  13 Hours  Includes Updates  Citizen Developer  Intro/Intermediate  Self-paced  VM  $1,495 USD

TotalAgility Professional Developer
Completing this multiple component training will prepare you with the knowledge and skills needed to gain a deep understanding of the features used regularly in capture and case management, standup a TotalAgility system, perform initial configuration, perform administrative tasks and runtime operation, design, configure, and operate basic and advanced cognitive capture workflows, design, configure, and operate basic and advanced case process workflows.

KTA-TRN-RPDEVV-000  142 hours  Includes Updates  Professional Developer  Advanced  Self-paced  $4,995 USD

TotalAgility Master Developer
This training will assist you evaluate and plan your next steps with the Kofax TotalAgility solution by introducing intelligent automation and a comprehensive overview of TotalAgility’ s functions, components, and runtime operation.

KTA-TRN-RMDEVV-000  14.5 hours  Includes Updates  Professional Developer  Advanced  Self-paced  $1,995 USD
Kofax Transformation™

Transformation Executive
Kofax Transformation™ accelerates business processes by replacing manual document classification, separation and extraction with touchless processing, speeding you along on your digital workflow transformation journey.

If you want to know more about the capabilities, this is the course for you. The course covers all the topics necessary to have a solid foundational knowledge of Kofax Transformation's capabilities.

Available Credentials
Transformation 6.4 Explorer

Transformation Professional Developer
Kofax Transformation™ accelerates business processes by replacing manual document classification, separation and extraction with touchless processing, speeding you along on your digital workflow transformation journey.

Whether you are a Consultant responsible for explaining the Kofax Transformation capabilities, a Developer responsible for maintaining and extending the Transformation solution in your organization, or an Administrator responsible for configuring and monitoring the solution, this course is for you.

What is the Kofax Master Class Series?

The Kofax Master Class Series is designed primarily for those who are experienced using the Kofax products and are looking to sharpen their skills and capabilities. These classes are conducted live and are typically 4 hours per day for 4 or 5 days depending on the product being taught. Master Classes go beyond anything currently being taught and explore the depths of popular Kofax products.

Who Should Attend?
Kofax Customers, Solution Architects, Development leads, Professional Services Consultants with experience delivering the corresponding Kofax solutions.

Prerequisites
Familiarization with the Kofax product being taught, in the areas of architecture, environment planning and deployment options\considerations including security, resiliency, scalability and maintenance. Kofax product certification in the relevant product is strongly suggested.

Special Requirements
Attendees should be able to understand and speak English at a communicative level

Get more information...
Master Class Series Training
